

**RESEARCH OF COMPLEX APPROACHES AT APPLICATION
OF MEDICAL PRODUCTS DURING SANATORIUM
TREATMENT OF VARIOUS CATEGORIES
OF PATIENTS WITH THE PURPOSE OF PREVENTIVE
MAINTENANCE OF CARDIOVASCULAR DISEASES**

*A. I. Bylim, H. H. Queen, O. A. Umnova,
D. V. Melik-Gusejnov, A. A. Duplishchev*

Taking into account all possible {probable} risk factors (OP), and also a combination of some accompanying diseases doctors of sanatoria, besides the basic medicinal therapy use complex approaches at application of medical products in process treatments, and also use natural factors of a resort.
