

THE ANALYSIS OF FINANCIAL AND ECONOMIC ACTIVITY OF THE STATE CHEMIST'S ENTERPRISES OF ROSTOV-DON

S. J. Kondraiov, S. M. Kuzubov

Now there is an essential growth of the small pharmaceutical enterprises. Other tendency – increase in a share of a private sector of the pharmaceutical market of the Rostov area. The important problem of the enterprises of the state chemist strengthens the status of a drugstore which serves interests of care of public health services. Existing problems of public sector of the pharmaceutical market, the tendency of present time on creation of networks of the big chemist in all areas of Russia has shown, that the association of the state drugstores is socially essential and is properly justified.
