

**METHODOLOGICAL APPROACHES
TO THE EFFICIENCY EVALUATION OF THE STATE
IMPACT ON THE COMMERCIAL ORGANIZATION
ECONOMIC ACTIVITY**

A. Bukreev, O. Aborneva

The article deals with the problems of the efficiency evaluation of the state impact on the commercial organization economic activity.

On the basis of comparative characteristics of methodological approaches to the efficiency evaluation of the state impact on the commercial organization economic activity the authors suggest: using the common methodological approach based upon summarizing indices of organizational and economic effects and upon particular indices; using scientific substantiation of criteria and indices of the state impact system efficiency level.
