

FUNCTION OF THE GOVERNMENT OF AGRARIAN AND INDUSTRIAL COMPLEX

A. Y. Popov, Y.I. Treshchevskiy

Nowadays in structure of functions of the government of agrarian and industrial complex one can allocate social, integration and protective. In some cases it is marked so called casting function, directed on formation of economic elite. Specificity of agriculture also demands realization of the function opposite casting - "equal". Action of all functions of the government of agrarian and industrial complex is modified by virtue of features of a complex and, first of all - an agricultural branch.
