

## V.N. KHITROVO'S PHOTOARCHIVES HERITAGE

*Yu.A. Nesterov, V.S. Sarychev*

The article describes an encyclopedia scientist V.N. Khitrovo. One of his little-known activities was scientific photography. In 1929 V.N. Khitrov's photo archives had about 7000 units. At present the greater part of these photo archives is missing. Some of the preserved photo-materials are in the archives of the Galichya gora reserve. These photo-materials are very important for revelation of the reserve landscapes prolonged dynamics.
