

BIOGEOGRAPHICAL PECULIARITIES OF THE STEPPE FLORA IN THE VORONEZH OBLAST

O.V. Prokhorova, A.Ya. Grigoryevskaya

The peculiarities of flora, relief and soil in the Vladimirovskaya, Khrenovskaya, Krasnyanskaya, Volokonovskaya and Khripunskaya steppes of the Voronezh oblast are revealed. The list of the plants registered in the Red Book of Russia and the Red Book of the Voronezh oblast is made. The importance is placed on the biogeographical approach to the study of flora.
