

MALAGASISMS IN RUSSIAN

Kretov A.A.

The article presents the rules of transliteration of Malagasy words, introduces the terms Malagasism and Cryptomalagasism, offers a technology of their extraction from a bilingual dictionary. It also specifies such concepts as internationalism, calque and exotism. Moreover It reports on more than 450 Malagasisms introduced into the linguistics.

These Malagasisms represent new material for research of the problems of Lingvocontactology. All in all the article suggests that there has been formed a theoretical and technological basis for creation of the "Dictionary of exotisms in the Russian language".
