

## **NOMINATION AND REFERENSE AS ARGUMENTS OF ILLOCUTION OF THE UTTERANCE**

*L.M. Minkin, I.S. Shevchenko*

The article deals with the main principles of the theory of utterance, concerning semiotic, formal, denotative, functional aspects of description of the studied objects. The interpretation of the author is presented in comparison with other theories. The utterance is considered to be a verbal realization of pre-positive model in the system of the language nominating a definite syntactic scheme.
