

EVOLUTION OF "SYMPHONY OF AUTHORITIES" CONCEPTION IN ANCIENT RUSSIA DURING XV-XVII CENTURIES

O.A. Novikov

Relations between the Church and State represent an important part of Russian history. Their formation and development coincide with the Russian State development. The conception of "symphony of authorities" is likely to be titled the main part of Russian heritage from Byzantine, which became the chief corner stone to the Russian statehood mansion for many centuries. The State authority became in some sense the exponent of moral and religious Orthodoxy ideals. From this aspect Ancient Russia reception of Byzantine "symphony of authorities" conception draws attention of State and Law History.
